RED RICE'S.

RED RICE'S—SUNDAY, SEPT. 6. MEN of goods unloading at Red Rice's day after day last week, what are you going to do with so much furniture, you will never be able to sell it! They know but little of our great trade who say so, go ask the railroad people what they think, they will tell you of the many thousands of dollars worth sent to all parts of the Golden West from Red Rice's each week. Two weeks time would see even our great supply scattered did we not rustle to get in goods cach day of the continue would see even our great supply scattered did we not rustle to get in goods cach day of the work of the continue would see even our great supply scattered did we not rustle to get in goods cach day of the continue would see even our great supply scattered did we not rustle to get in goods cach day of the successful houses in all cities, why do they take the lead, they make quick cash count. Red Rice's has been a get there house from the start, beginning at the bottom, it is now at the top: match the stock of goods now on sale as if you can on this coast it can't be done; if you have any doubts about these statements clear them away by calling, looking around and pricing the goods. We are rich in parlor goods and bedroom sets from the cheap ash and painted suits to the richest manlogany walnut and cherry in sideboards. wardrobes, planos, organs, even to a scroll saw for the children to amuse themselves with, and the beautiful painting to adorn the wall, everything comes and goes at Red Rice's. We shall be giad to see you at any time, furthermore you will be gifed always giad that you hunted us up, when you see the goods, learn the prices and the methods at RED RICE's GREAT BAZAAR, RED RICE'S.

CUNNINGHAM'S PARTY. Said to Have Lost the Trail They Have

San Francisco, Sept. 5.—[By the Associated Press.] Today a telegram was received from Newman, Cal., saying that Sheriff Cunningham had lost the trail of the robbers which he had fol-lowed south from Ceres. Cunningham himself did not send the telegram, but forwarded it by messenger to Newman. His location at the time he sent the message is not known, but evidently Newman was the nearest tele-

graph station. Searching parties that went out from Merced have returned without the slightest information. The search toward the west having proved vain the officers are considering where else the robbers might have gone. Had they gone directly east they would have gone directly east they would have reached La Grange, where the immense dam for the Ceres and Turlock irrigation district is building. A great force of men is now employed, and some people think that a couple of laborers might have stopped the train and returned to La Grange during the night without attracting the attention of their comrades.

A railroad officer says that in his opinion the robbers walked along the track to Modesto, four miles north of Ceres, and took the next train to San Francisco. They might easily have done so.

No word has been received at the railroad office from Detective William Smith nor at Wells, Fargo & Co's. office from Detective Humes

DERSONAL—MORSE. THE LADIES Such is the Belief of the Detectives in the Case.

Mercep, Sept. 5.—[By the Associated Press.] The full detective force, which is after the Ceres train robbers, met here this afternoon by appointment in the El Capitan parlors. Those leading the chase are Sheriff Cunningham, Deputies Stockiard and Sell, Detectives Hume. Lawson, Packer and Smith, and although forty-eight hours have passed since the attempted robbery, these brave men have not taken any rest, go-

ing night and day.

Detective Lawson this evening said: "At our meeting today we all agreed that Bob and Emmett Dalton, who are that Bob and Emmett Dalton, who are now at large, the men who figured in the Alila train-robbery, had something to do with this. OAKLAND, Sept. 5.—The condition of Len Harrls the wounded detective, was more favorable today. He rested qui-etly last night, and his physicians say that there is no immediate danger as long as he is free from fever.

Killed by a Constable's Fist. Susun, Sept. 5.—Yesterday after-noon while Constable Fitzpatrick was attempting to arrest a man called "Liverpool Red," the latter attempted to stab the Constable. Fitzpatrick, in defending himself, struck the man with his fist, knocking his head against a wall. Concussion of the brain resulted and the man died. Fitzpatrick was exonerated by the Coroner's jury.

An Embezzier Disappears,
Windson (Ontario,) Sept. 5.—Maj Ben Tillman, who is alleged to have embezzled a large sum from the Falls City Bank of Louisville, and who has been here since last Sunday, has suddenly disappeared. It is stated that he crossed the river to Detroit.

Two Eleping Couples Arrested.
SALEM (Or.,) Sept. 6.—A double elopement occurred her today. Fred S. Bynom and Stella Mitchell and Louis Bechel and Myrtle Durban were mar-ried, and immediately thereafter took the south-bound train. The girls were not of age, and their parents procured warrants for the arrest of both couples, who were arrested at Albany at noon.

An Old Official Resigns.

San Francisco, Sept. 5.—At the meeting of the Board of Fire Commissioners this afternoon, Samuel Rainey, superintendent of engines, tendered his resig-

city, to which an overdraft of \$22,500 is owing by the firm. The liabilities of the firm, it is stated, amount to between \$80,000 and \$50,000, of which about \$15,000 is due eastern creditors. The firm claims assets of \$125,000 and to be perfectly solvent.

San Francisco, Sept. 5.—[By the Associated Press.] The steamship Mariposa arrived today from Australia, via Honolulu. The Mariposa was delayed a day in a priving here, on account Honolulu. The Mariposa was delayed a day in arriving here on account of a sever storm experienced between Sydney and Auckland. The storm lasted four days. The seas ran high. The pilot hous and smokeroom were stov in and other damage was done. Those on deck narrowly escaped being washed overboard. Antonio, one of Mme. Bernhardt's valets, and the ship's doctor, were slightly injured. The steamer was six days in making the passage between Sydney and Auckland, which is usually made in four days. Among the steamer's passengers were Mme. Bernhardt and company, who were tendered a reception on their arrival here.

ENGLAND'S FIGHT.

Other Powers Stand Aloof as to the Dardanelles Affair.

Caprivi and Kainoky Content Themselv with Advising Salisbury to Go Slow over the Salisbury New Departure.

Burlin, Sept. 5.—[Copyright, 1891, by the New York Associated Press.] The conferences between Chancellor von Caprivi and Count Kalnoky, the Austrian prime minister, near Schwaatzeneau, have ended in their advising the English government not to be in a hurry to take any diplomatic action in connection with the Dardanelles incident. The tone of the official press here indicates dis-tinctly that the government is averse to oining England in any hasty remonstrance against the Porte's agreement with Russia. The North German Gazette holds that the Porte's assent to the

cette holds that the Porte's assent to the claims of Russia is less important as a breach of treaties than serious as disclosing a new line of policy adopted by Turkey toward Russia.

The Vienna Press (semi-official) anticipates a sharp antagonism between British and Russian inducences at Constantinople and recommends that England become more amenable so far as stantinople and recommends that England become more amenable so far as Egypt is concerned. In the opinion of the Press the new position of affairs does not involve any danger to the peace of Europe. The other great powers, it holds, have no grounds for taking an active share in England's impending diplomatic measures. The currents of intrigue around the Sultan, which are now in a swellen condition, may be allowed to run their course, as the vital interests of Turkey will finally bring everything back to its will finally bring everything back to its

The waiting attitude which the imperial Chancellors have recommended to Lord Salisbury is explained by official advice received tonight from Constantinople to the effect that the life of the new Turkish capinet will be brief. The highest Turkish circles are indignant over the composition of the new ministry, and especially at the dismissal of Ghazi Osman, Minister of War, and marshal of the palace. When the other Indians remonstrated the chief took another pull at his flask and started to clean out the aborigines. He made for Bear Robe in regular Indian fashion, raising a terrible war-whoop, and that Indian not caring for a personal encounter, drew a six shooter and fired three shots at Black Bear, two taking effect. The chief will not allow doctors to examine him, but it is thought one bullet will prove fatal.

## Another Inundation at Redlands.

Torrents of Water Accompanied by a Terrific Gale.

Motor Road again Washed Out and Minor Damage Done.

Other Parts of the State Were Also Vis-Bureau Predicts More.

By Telegraph to The Times.

REDLANDS, Sept. 5.—[Special.] Red-lands seems to be fated. Friday the place was visited by a disastrous rainfall, made more so from the fact that it came out of season. The principal suf-ferer by the storm of Friday was the Redlands Motor Road. Tonight, however, all of the main breaks and washouts in the road had been repaired.

This afternoon another disastrous storm came up and for a time the rainfall

was terrific. was terrific.

At about 2:30 p.m., the drops started to fall, accompanied by a violent windstorm. The wind came from the northeast and traveled at the rate of sixty miles an hour. For a time—about five minutes—it blew a perfect gale. This wind was followed by a heavy downpour which was soon followed.

heavy downpour which was soon followed by a flood of water through the city. Several stores were inundated.

The blacksmith shop of Sadler, at the corner of Citrus avenue and Fifth street, was demolished by the wind. The fire wall of the Sloan Hotel was partially blown down, but the damage was light

blown down, but the damage was light, not exceeding \$50.

The total damage was very light, although along the zanja the water was 100 feet wide and two and a half feet

deep.
The Gage canal was filled up with slickens.
The signs in front of the store of Vinton Mitchell were blown down.
The track of the Redlands Motor road The track of the Rediands Motor road has suffered worst. The track of the Santa Fe did not entirely escape. It took but an hour to repair the damage. The storm was by no means as bad as the first one. The total summary of the material damage seems to be the unroofing of the blacksmith shops of Pains and Adlar.

Paine and Adler.

The water has all passed down now and no more damage can be looked for.

THE STORM ELSEWHERE. Rain in Various Parts of the State-Little

Damage Done.
San Francisco, Sept. 5.—[By the Associated Press.] The first rain of the season fell today in the coast counties of California and in some parts of the central valleys. At no point was the precipitation great, and no damage was done to grape or other crops. Weather bureau indications point to generally unsettled weather for the Coast, with occasional showers in the valleys of

Suicide of a Chinese Woman.

A Chinese woman named Mow Jon, aged 24 years, committed suicide early yesterday morning by taking an over-dose of morphine. A woman who was with her discovered that something was wrong very shortly after she took the drug, and gave the alarm. Everything was done to revive her, but without avail, and she died between 5 and 6 o'clock. The dead was removed to Orr & Sutch's undertaking rooms on Spring street, where Coroner Weldon held an inquest, the jury returning a verdict in accordance with the above facts.

## SUPREME COURT CASES.

Five Opinions Received Yesterday for Filing.

The Judgment in the Alaniz-Casanave Case Affirmed.

New Trial Ordered in the Sapperfield Damage Suit.

Long List of Candidates for the Whittier Reform School-Two Divorces Granted-Court Notes -New Sults.

Five decisions were received from headquarters for filing in this city by Deputy Clerk Ashmore of the Supreme Court vesterday.

In the case of Concepcion Alaniz, (respondent) vs. Pierre Casenave et al., (appellants) the judgment and order appealed from are affirmed. This action was for an accounting and to compel the reconveyance of real estate. The plaintiff claimed that after the marriage of her adopted daughter and niece to the defendant, Pierre, in 1870, the latter took charge of her business and has, ever since continued to manage and control the same, as her agent. In 1874 plaintiff sold some property and placed the proceeds, about \$22,000, in the hands of said Pierre, who purchased

certain lots in this city with a portion of the money, taking the deeds in her name, but retained the larger portion name, but retained the larger portion of the money. On June 17, 1875, he proposed to her that for the purpose of managing her business she should convey all the lands to him, promising to reconvey on demand, which she did. On May 22, 1888, he conveyed said lands to his wife, the other defendant, by deed of gift, and pretended that he did not receive the same in trust but

did not receive the same in trust but purchased it from plaintiff.

The judgment and order denying a new trial in the case of Sappenfield (respondent) vs. the Main Street and Agricultural Park Railroad Company (appellant,) are reversed. On November 22, 1888, plaintiff, while engaged in the service of the defendant as a driver, was driving a bere called. Day which the service of the defendant as a driver, was driving a horse called Dan, which was hitched to car No. 4, along Main street near Tenth when the horse became detached from the car and dragged plaintiff over the dashboard, throwing him upon the track, where he was run over by the car and received such injuries as necessitated the amputation of one of his legs. For damage thus sustained he brought this action, alleging that it had been caused by defendant's negligence in furnishing him with an unsafe and ungovernable horse, and a car whose "appliances and attachments" were in an unsafe and dangerous condition. The case was tried by a jury and a verdict rendered in favor of plaintiff. The trial Court having erred plaintiff. The trial Court having erred in its instructions to the jury the cause is remanded.

In the case of M. L. Ferguson (respondent) vs. Alexander McBean et al. spondent) vs. Alexander McBean et al. (appellants.) the judgm ut and order are reversed and the cause remanded with directions to the Superior Court to sustain the demurers to the complaint, with leave to plaintif to amend as she

with leave to plaintiff to amend as she may be advised. This was an action to foreclose a vendor's lien on a contract. The judgment in the case of Emma G. Lattin et al. (appellant) vs. Henry T. Hazard (respondent.) is affirmed. This action was to enforce specific performances of an agreement between James McLoughlin and a number of person who owned various tracts of lead in this city through which they agreed to give him the right-of-of way for a street railroad. The Court holds that it makes no difference whether the covenants are concurrent whether the covenants are concurrent or not. The agreement that McLough-

or not. The agreement that McLough-lin will operate the road for the stipu-lated period in the mode agreed upon, is a substantial and important part of the obligation which has not been per-formed, and of which specific perform-ance cannot be enforced by a decree. The order denying a new trial in the case of Painter et al. (respondents) vs. the Pasadena Land cand Water Com-pany et al. (appellants) is affirmed, but the cause is remanded with directions to the court below to modify its dethe cause is remanded with directions to the court below to modify its decree. This was an injunction suit to restrain the defendants from diverting water which the plaintiffs need for domestic purposes. The court below granted the injunction, declaring that defendants have no rights in land or water. This, the Supreme Court holds, went too far.

CANDIDATES FOR THE REFORM SCHOOL. mitment of children to the State reform school at Whittier came up before Judge McKinley in Department Six yesterday. That of J. L. Dougherty for the committal of his two nephews, Walter and

mittal of his two nephews, Waljer and Cornelius Orr, who are destitute orphans, aged respectively 12 and 14 years, was denied, the Court informing the applicant that the school had been established only for the purpose of reforming incorrigible children.

Dougherty admitted that they were not vicious and had no bad traits excepting a tendency to disobey. He said he had tried toget homes for them, and had succeeded, but the people sent them

had tried to get homes for them, and had succeeded, but the people sent them away again. Upon examining the boys, kowever, it was developed that one worked on a ranch until his services were no longer required, and the other one was sent away because the people he was with could not afford to keep him. Their father was killed some years ago on a Texas range, and the mother is also dead.

Mrs. W. Cunningham's application for the committal of her adopted child, Lena, a pretty child 12 years of age, was con-tidned until Saturday next for further hearing, the court requiring further ev-idence before believing the girl to be

incorrigible.

## RARE CHINA.

To be Seen This Week at the Crystal

Meyberg Bros., of the Crystal Palace, have just received from the celebrated house of Haviland & Co., Limoge, France, fifteen sets of china made on special orders and in special designs for prominent people of Southern Califor-nia. An attractive feature is that most of the pieces are marked on the under side with a fac simile of the autograph of the owner. A blue under glazed dinner set for Mrs. Mary C. Newton of Pasa-dena is superb, and probably as fine of its kind as has ever been seen in Southern California. The expense of the set is \$275. There are also elegant sets for Mrs. Childs and Mrs Capt: Thom of this city, and for Judge Otis of San Bernardino. There are bouillon sets, game sets, and agreat many new things in china which will prove a delight to bon vivants. Meyberg Bros. have secured from their customers the privilege of exhibit-

ing this fine collection of china during the present week. It can be seen in their art room at any time during busi-ness hours, and a general invitation is exended to the public to call and inspect it.

The Rulohvasbask-Hunsaker Sensatio There were no new developments in He the Count Rulehvasbask-Hunsaker matter yesterday. The Count did not show np, but the woman was located in the Carlton lodging-house, where she goes under the name of Mrs. Clark. She says she is not married to the Count, and that she never had a child and knows nothing about the baby he cre-ated a sensation over in San Francisco. He has followed her from place to place for several years and has annoyed her almost to death. She denies that there

has ever been anything between them, and never will be. Yesterday afternoon young Hunsaker and Mrs. Clark called at the District Attorney's office and attempted to induce him to issue a warrant for the arrest of the Count on the charge of insanity.
Mrs. Clark denied that she was ever
married to the Count, but when the District Attorney informed her that he had

Valuable Coal Deposit.

O. E. Roberts, who lives at the end of the dummy line, about a mile this side of the Cahuenga Pass, has discovered a coal mine on his place. Mr. Roberts started out some time ago to dig for water. He went about sixty-five feet, when he struck a carbonized ledge six water. He went about sixty-five feet, when he struck a carbonized ledge six feet in width, with veins of coal running through it. The foot rock is of blue sandstone and the hanging rock of brown sandstone. One vein of coal is eighteen inches wide and three inches thick. Mr. Roberts has tested the coal, and finds that it burns as well as the imby whom the detendant was sentenced to imprisonment for the battery of his wife.

In Department Five yesterday the petition in insolvency of C. K. Myers, a cigar dealer, was filed and presented to Judge Shaw, who thereupon ordered a "drifting" from the bottom.

## A FORGED MORTGAGE.

Bold Attempt to Victimize Money Lender.

A Clever Confidence Game That Was Almost Successful.

The Forger Caught in the Act and Landed in Jail.

. C. Hoy Impersonates M. M. Green, an as Such Tries to Mortgage the Latter's Ranch—The Fraud Detected.

One of the boldest attempts at gentle manly highway robbery that was ever attempted in this city, or in fact in any city on the coast, came to light yesterday afternoon at 12:30 o'clock, when an ordinary looking laboring man, named J. C. Hoy was arrested in O. A. Stassforth's office in the California Club building, on the corner of Broadway and First street, and locked up on a charge of forging the name of M. M. Green, who is well known in this city, and lives on an eighty-acre farm on Vermont avenue.

That Hoy made a bold play in a vain attempt to victimize Stassforth, who is a-money lender, and was backed by three or four others who simply used him as a catspaw, there are but few doubts by

Hoy, who was introduced to Stassforth be Ed Baker, an ex-saloon man, as M. M. Green, has worked around this city at odd jobs for several years past and does not present the front of a polished rascal by any manner of means and as he is not over-burthened with brains he could play the 'honest farmer' dodge among people who are not versed to any great extent in the wicked ways of this world, and for these reasons he was probably closen by a wicked ways of this world, and for these reasons he was probably chosen by a smooth gang of rascals to do their dirty work and had he succeeded Mr. Stassforth would have been out just \$8000, and they would have divided up that sum last night, for when Hoy was arrested at Stassforth's office yesterday afternoon, he was there for the purpose of gathering in the swag, which he had negociated in the shape of a loan on Mr. Green's eighty acres, in that gentle-Green's eighty acres, in that gentle-man's name, and the scheme had gone so far that the mortgage had been filed with the County Recorder.

STASSFORTH'S STORY. The story is best told in Mr. Stass-forth's own language, and is as fol-

whom I have known for quite a num-ber of years, came to me and stated that he had a man who wanted to borrow \$8000 on eighty acres of land on Vermont avenue near the Santa Fecrossing. I told him that \$100 an acre on land in that section was too much, but that I might talk on a basis of \$75

but that I might talk on a basis of \$75 an acre.

"He was very anxious to have me go out and look at the land, the next day we drove out. At the ranch we found a man walking about the place in a farmer-like manner, and he seemed to be perfectly at home. He wore a pair of green glasses and answered to the name of Green when Baker called him. We were formally introduced, and the fellow talked as if he had lived there quite a while, but I soon discovered that he knew but little about his neighbors, for I had posted myself regardbors, for I had posted myself regard-ing the tract and a few questions soon convinced me that the allegted owner knew nothing about the people about

him.

Baker explained by saying thathis friend Mr. Green is a singular man. He attends strictly to business and has nothing to do with his neighbors. I was well pleased with the tract and told Bakerto call at my office the next day and we would talk matters over and see what could be done. what could be done

been was all right I would have the money ready forthem.

ready for them.

"The wife proposition seemed to stagger him, and he wanted to know if her presence was absolutely necessary. I replied that it was, as the papers would not be legal without her signature. He then informed me that nothing could be done. In a few days he returned and told me it was all right, as Mr. Green had been a widower for five years.

"The papers were to be drawn up at once, but when Baker told me that Mr. Green, whom I knew of but had never met until Baker took me to his place, was a widower I became suspicious, as I understood that his wife was living, so I understood that his wife was living, so I called on young Green, whom, I knew, and asked him about his father. He told me that his mother was living and that I could learn all about the family by going out to the ranch. I drove out and was met at the door by Mrs. Green. She told me that her husband was at home, and I was not surprised when he made his appearance and I saw that he was not the man who had been introduced to me as Green.

Green.

"I asked the old man a number of questions and he become quite suspicious when I told him why I had called. He then told me he had noticed a strange man with green glasses hanging about his place. I told him that the bogus Green had negotiated with me for a loan and showed him the fellow's certificate, which he pronounced a

forgery.

"I then induced Mr. and Mrs. Green to

it withdrawn, but I could do nothing more than declare it null and void, as it

more than declare it null and void, as it was a forgery.

"I had arranged for the real Mr. Green to be in the city so that I could get him at a moment's notice, and as soon as I learned that the mortgage had been recorded, I telephoned him to come to my office. I told him how things stood, and informed him that the forger would be around very soon to get his money. He rushed off to the District Attorney's office and secured a

warrant, and an officer came around to wait for the forger.

"At 12:30 this afternoon the bogus Green and Baker walked into the office and were confronted by the real Green and an officer. The fellow was put under arrest, at once, and Baker lost no time in trying to explain his connection in the matter. As soon as he saw the real Green he rushed up to him and declared that he had known him for sixteen years. When he left the office he told me that had he known that the bogus Green was a fraud he would not have joined him in the scheme. This is the whole story, but I am confident that we have not captured the whole gang by any manner of means."

means."
The forger was soon identified as John C. Hoy, and was taken before Justice Stanton, where his bail was fixed at \$2500 and his examination was set for the 14th inst. He failed to secure bail and was locked up in the County Jail.

## SCENE IN COURT.

Mrs. M. M. Dalton Makes an Assault Upon Her Husband. When the case of M. M. Dalton, charged with assault to rape, was called in Justice Austin's court yesterday what could be done.

"When Baker called the next day I told him I had thought the matter over and could not advance over \$50 an acre or \$4000 on the tract. At first Baker would not listen to such a proposition and said he knew Mr. Green would not think of such a thing, as he could not get along with less than \$6000. He went out and had another talk with Green, he said, and on his return to my office he said his client would accept \$4000, and I told him that he would have to prepare me an abstract, as I could not lend money unless I knew that the title was all right. He wanted me to do this, but I told him I was not in the business. I told him as soon as the abstract was prepared he might bring Mr. Green and his wife in and if the title was all right I would have the money ready for them. morning, the defense asked that the exwas given some good advice and allowed to go, her husband declining to make any complaint against her.

THE American hog is at length re-admitted to Germany. This refers to the four-footed variety. BERNHARDT's son Maurice, whom the actress used facetiously to refer to as her "little accident," has arrived at San Francisco in a private pal-ace car with his wife, the Hungarian Princess, and a host of serv-ants. He is being made much of and his mamma will be made still more of by San Francisco's aristocrats, which proves that in modern society, art, like charity, covers a multitude of sins.

THE San Francisco Chronicle thinks that some better agent than water will have to be employed for the extinguishment of fire when it gets a good headway in a wooden city. It suggests the use of dynamite to blow up buildings in the path of the fire. Then we must have comprehensive laws to protect the users of dynamite from suits for damages in buildings thus destroyed. Insurance companies would probably refuse to pay for them unless specifically obliged to do so.

FROM Mr. Boelte, who has charge a forty-acre orchard of J. C. The following is given as the relative value of several varieties of Sugar-beets, 1.08; beet leaves, 0.44; green alfalfa, 1.06; alfalfa hav bran, 4.73; fresh beet refuse (pulp.) 0.22. From this it appears that sugar-beets at \$3.50 a ton are about equal in food value to alfalfa hay at at \$11.75 a ton.

WOLF's COMET, if it traveled on schedule time, passed through the Pleiades at 3:15 last Friday morning, and again passed the same place in the heavens at 2 o'clock vesterday afternoon. It was not visible to the naked eye. As it passed in front of some of the fixed stars, astronomers hoped to make calculations on refraction which would determine the density of the cometary matter. Ordinarily it is found that a star shines through any portion of a comet as brightly as it does through the great interplanetary yold, and hence it has been argued that a comet is an extremely tenuous mass-comparable to the very lightest vapor. What the bright head of a comet is composed of is still an enigma.

THE following remarkable press dispatch from Omaha appears in the San Francisco papers of Friday:

Francisco papers of Friday:
There is a rumor being circulated here about army headquarters to the effect that the headquarters of the Department of Arizona will probably be moved from San Diego to Denver and the State of Colorado will be taken from the Department of the Platte. Gen. Brooke was asked about the matter, but would not express an opinion. One of the other officers of the department said: "I should think, that if the head-quarters were going to be removed from quarters were going to be removed from San Diego that they would be located at Santa Fe, but I know for some reason Den-ver is regarded favorably."

The most interesting point about this dispatch is the information which it conveys that the headquarters of the Department of Arizona are at San Diego. Many Los Angeles people had hitherto supposed that they were on the northwest corner of Spring and Second

The last experiment he the most successful and satisfactory, not only because it was the heaviest of the six, but because it was produced while the barometer was rising. The circumstances were very unfavorable. Several balloons of the largest size, containing hydrogen, were sent up, also a number of kites. The explosions commenced about 10 o'clock in the evening, and were continued for two hours. The sky was as clear as a whistle and not a cloud was in view. The cowboys and natives of the plains predicted an utter failure, but at 3 o'clock in the morning lightning began to flash and it was not long before the heaviest rain seen in that section for three years was falling, and it continued to fall'till 8 o'clock in the morning. #### How Rich We Are.

Notwithstanding all the grunting and growling about hard times in the United States, the incotestible figures of the ensus returns show that, as a people, we have been growing rich very rapidly. The value of real estate and per onal property, as actually assessed the officials of the several States and Territories, makes up the following grand aggregates, stated in round num-

In 1870, fourteen billions. In 1880, seventeen billions.

In 1890, twenty-four and a quartar billions. As the estimated true valuation ex ceeds considerably the assessments.

these figures are expanded to read as

as follows: In 1860, sixteen billions.

In 1870, thirty billions. In 1880, forty-three and two-thirds

In 1890; sixty-two and two-thirds

However, taking the actual figures of he assessors as a criterion, it appears that the value of all property in the United States increased during the decade 1880-1890 from \$16,902,993, 543 to \$24,249,589,804, being an advance of \$7,346,596,261-an amount equivalent to the true value of all property as returned by the United States census in 1850. In other words, the country increased its wealth in ten years by as large an amount as it owned alto gether forty years ago.

In 1860 the per capita wealth was \$514; in 1870 it was \$780; in 1880 it \$870, and in 1890 it ran up to \$1000. So it appears that we have grown more

rapidly in wealth than in population. As to the talk about the "rich becom ing richer and the poor poorer," that can neither be demonstrated nor controverted by these census figures. a large share of the increment of wealth has been gathered into the hands of a few cannot be disputed. The large increase in the number of millionaires and so on up to ten times, forty times, and sixty times millionaires is a matter of frequent note. There are a thousand millionaires in the country now to one in 1850.

Without doubt the people of the United States are headed for the tinctinction of being the wealthiest the globe. And, notwithstanding the tendency of property to accumulate in the hands of the few, the fact remains that wealth is here more generally distributed than in any other great nation. Wisdom and a desire for the general welfare would dictate that the political economy of the future shall concern itself more about methods of distributing wealth and keeping it distributed than with any other feature. The graduated tax on incomes, the limitation of powers of bequest, escheating a part of large estates to the state and such measures are calculated to cut a cided figure in future legislation

## Too Hot for the Gentle Doctor.

We fear that Dr. Eames, who is working the iron plant racket in San Diego, is adroit cajoler. He knows the value of flattery, and he has found out also that he cannot flatter the average San Diegan more effectually than by running Los Angeles down. This from an iterview in the San Diego Sun is particularly good:

good:

"Is there any likelihood of your being pressed to take the plant to Los Angeles?"

"I may be pressed. Indeed, a Los Angeles man has been at me to go there, and he recently induced the president of the Los Angeles Chamber of Commerce to come down to see me. I was asked to meet the gentleman at the Horton House, but I had another engagement and forgot to do so. But there is no use talking about Los Angeles. I was there when my plans were forming and had inducements offered me to stay. But I told them I should not put up an irron plant that I should have to be absent from during the summer months; and that, as during the summer months; and that, as the heat was too great at Los Angeles, I should assuredly go to San Diego. Here I am and here I shall stay."

This from a man whose business

requires more or less attendance on a red-hot furnace the year round, and with whom "December's as torrid as May," is particularly cutting. Provid-ing the artful Doctor had been induced to locate in Dos Angeles, would he have felt it incumbent on him to take his furnace away during the summer to keep it from getting too hot? Oh, Doctor thou talkest affer the manner of a fakir!

MISS HUTCHINS RECEIVES.

Miss Hutchins gave a very enjoyable reception on Friday afternoon at her residence, No 1233 South Olive street to the Young Ladies' Missionary Society of the First Congregational Church. The subject under consideration was Micronesia. Miss Frances E. Bennett read an intercesting paper upon the labors of Mr. and Mrs. Robert W. Logan, the ploneer missionaries of that region, and the founders of the Anapam Mission, on the Island of Ruk. This was followed by an instructive paper, written by Mrs. Dr. Hunt, and read by Miss E. Catharine

Mills, on "The Ponape Mission."

Refreshments were then served, and a delightful hour spent in social conversation and in making arrangements for a public reception to be given to Miss Alice Harwood of Orange next Friday evening, September 11, in the parlors

of the First Congregational Church:

Miss Harwood will sail in a few weeks

Tragic Fate of an Eloping, Couple fr Ceylon-Australia the Possessor of a Little Navy.

By Telegraph to The Times. SAN FRANCISCO, Sept. 5.—[By the Associated Press.] The steamer Mariposa, which arrived today, brings news that Hon. John Dominis, prince con of Hawaii, died August 26, from a den attack of pneumonia. He had been ill for some time with gout, which turned to inflammatory rheumatism. Pneumonia subsequently set in. Queen Liliuokalani was much affected by the death of her husband. The remains were lying in state at the palace when the steamer left, guarded by Capt. Now-lein and forty men from the royal barracks. The Prince was born in Schened tady, N. Y., May 10, 1832. His father was an Italian and his mother an American lady of Boston. He was taken to Hawaii when a child. He came to California in 1849, and spent some time here. He was married to the present Queen some years ago. The United States steamer Charleston

arrived at Honolulu August 28, eight days from San Francisco. A serious shock of earthquake occurred at the islands August 25. As far as known no damage was done.

## SLAVERY IN LIBERIA.

Returned Colored Colonist Tells a Start. New York, Sept. 5.—[By the Associated Press.] George B. Parks, a mu-

latto belonging in Atlanta, Ga., with his family of wife and seven children. arrived today. He is an intelligent man, a carpenter by trade, and tells an interesting story of affairs in Liberia, Africa. On the 22d of last May, lured by promises of the Society for the Promotion of Colonization in Liberia, he sailed for that place. On landing at Moravia, he found the country in a most debauched condition.

American negroes who had already emigrated there had assumed a most tyrangrated there had assumed a most tyran-ical rule over the natives. No part of the ground was under cultivation. Parks has been a slave in the South, but he says the condition of slavery in Liberia is worse than in Georgia before the war. Parks, because he would not deal in human flesh, was ostracised by the negroe from America. After spending twenty one days he concluded to return.

The Catholic congress which opened on Monday and held its closing session yesterday, assumed unexpected importance. Over 1000 delegates were in attendance. A resolution was adopted de-claring that the time had come to convoke a great international Catholic congress for consideration of the question of the restoration of temporal power to the Pope, and a committee was ap-pointed to arrange for holding such a pointed to arrange for holding such a congress. In discussing the question of a neutral ground for a place for the meeting of the proposed congress, Switzerland was most in favor. Delegates will be summoned from every Catholic community in the world. The question of the restoration of temporal power to the Pope will be treated, not as an Italian question, but as one of universal concern.

The congress affirmed the determination of German Catholics to remain resolute supporters of the driebund, and decided to continue the policy of Dr. Windthorn in working for the recall of the Jesuits and for religious instruction in the primary schools. Augeles winner, Manning of Los Angeles runner-up.

Association doubles, Bumiller and Coulter winners, Cawston and Woodhouse runners-up.

The handicap singles and doubles are not yet concluded.

Of the prizes so far won, the Los Angeles club has captured four first and three seconds and divided first honors with Pasadena in ladies' doubles; the Santa Monica club won three seconds, Riverside one first, one second and divided first honors with Santa Monica in the mixed doubles. Pasadena captured one second.

PRIZE PRESENTATION. At 8 o'clock yesterday afternoon the presentation of prizes took place at the rounds. The prizes were displayed on table placed in front of the grand tand. Mrs. Senator John P. Jones made stand. Mrs. senator John P. Jones made the presentation, assisted by Abbot Kinney, the retiring president of the association, who has so prominently identified himself with furthering the interests of the game in this section of

interests of the game in this section of the State.

The occasion was a brilliant one, the grand stand being crowded with players and interested onlookers. Mr. Kinney briefly prefaced the presentation in a happy speech, in which he took occasion to refer to the auspicious surroundings and the notable advance which the game has made since the last annual tournament. Mr. Kinney's remarks elicited much applause.

The prizes were then distributed as follows, Mrs. Jones handing out the handsome trophies to the several winners as each advanced amid loud calls of "speech," "speech," to which Mr. Cosby alone responded:

Soild silver challenge cup to Mr. Coulter, winner of the all-comers' singles; second prize, clock modeled after a lighthouse, to Mr. Cawston.

All-comers' doubles, first prizes, silver-hacked brashes.

Play began yesterday morning in the finals in mixed doubles between Mr. Cawston of Santa Monica and Miss Gilli-land of Riverside and the Los Angeles team composed of Mr. Bumilier and Miss Tufts. The former team had things their own way and won two straight sets, 6-2, 6-4. The playing was steady rather than brilliant, but proved quite interesting to the spectators.

GERMAIN DOWNS COSBY.

When Germain and Cosby met in the

semi-finals in association singles, it was naturally expected that an exciting match would result, and the spectators were not doomed to disappointment. Both contestants are crack players of Both contestants are crack players of the Los Angeles club. Both play the back-line game, and while Germain hits the ball harder and makes more brilliant strokes, Cosby is usually the steadier player. The contest was nip and tuck from start to finish, and was finally won by Germain by fine work when it was most needed. Cosby won the first set 6-4. The second was won by Germain 6-3. In the decisive set Cosby started out in fine shape and soon secured a dangerous lead. He had five games when Germain had but three, but the latter player responded to the emergency, and soon the score was tied. The two succeeding games were also won by Germain, which gave him the set, 7-5, and the match leaving the finals to be played of between him and Manning.

GERMAIN WINS PIRST PRIZE. The latter match followed in the afternoon. It was agreed to play only two sets, both of which Germain won with-out much trouble. Manning got in some hard strokes, but was wild at critical points, and the match was less exciting than had been expected. The score was 6-3, 6-4.

ASSOCIATION DOUBLES. In the semi-finals in this event yester-day morning, champion Coulter and ex-champion Bumiller had an easy vicory over Barry and Gilmore, winn n two straight sets, 6-2, 6-2. Los Angeles team totiowed up this vic-tory by winning the finals in the after-noon over Cawston and Woodhouse. The first set was won rather easily, 6-3, but in the second set the Santa Monica players put up a brilliant game, and had they been a triffe steadler to-ward the last, the set would have been

team won, 7-5.

In the handicap singles the players were divided up as follows by the handicapping committee: Woodhouse and Lester, owe ½ of 15; Singleton, scratch; Gilmore, ½ of 15 less one bisque; Perry, Lillingston, Osburn and Corson, ½ of 15; Jones Moore, J. H. Howland, H. Howland, Hamilton and Wigmore, 15; Tufts and Graham Corson, ½ of 80.

The matches played yesterday in this event resulted as follows: Osburn won by default over Tufts; Hamilton won by default over Wigmore; Howland won by default over Wigmore; Howland won by default over Singleton; Lillingston beat A. H. Howland, 6-1, 6-4; Jones beat Corson, 6-3, 6-5; Gilmore beat Moore, 6-1, 6-3; Perry beat G. Corson, 6-1, 6-1. This ended the first round. In the second, Osburn beat Hamilton, 6-4, 6-5; Lillingston beat Jones, 6-1, 6-3; Gilmore beat Perry, 6-0, 6-2. This event will be concluded tomorrow, when the handicap and ladies' doubles will also be taken up.

SAN FRANCISCO MARKETS..

SAN FRANCISCO, Sept. 5 .- [Special to San Francisco, Scot. 5.—[Special to The Ities.] The vegetable market is very dull and supplies of all kinds are over abundant. The demand is light and prices without one or two exceptions are weak. There is a slightly improved tone in the better quality of potatoes, but there is no visible reduction in stocks on hand. Sweet potatoes have a weakening tendency. Onlons are argain in good supply and prices are a; e again in good supply and prices are

easier.

The market for summer fruits is in poor condition and overstocked with nearly every variety. Canners are not buying much at present, and this accounts for the heavy increasing surplus of fruit. Quinces are quotable at 50c per box. Grapes come in freely and prices are weaker.

In dairy produce the market still holds up for fancy soil butter, with demand slow for inferior grades. Choice California eggs sell well.

DR. WOH, The Eminent Chinese Physician.

Dr. Woh's life work has been from early youth one of persistent and untiring servation, study and investigation, as fully as lay in him power, to perfect himself ches of the art of healing human siekness and disease. Born in China, of influential parents, of a family whose ancestors have been for get renowned as leading physicians, Dr. Woh naturally followed in the feetsteps of his fathers. In China he has practiced his profession for several years, being at one time a physician in the Imperial Hospital, and in America for a long time. His great number of patients, his wonderful and many cures, and the great list of letters from grateful and thankful patrons now prove him to be a remarkable and successful nealer of sickness and all diseases.

For many years I have been troubled with lung disease, which finally ended in asthma and consumption.

I consulted with the best physicians I could find but they did me no benefit, but on the contrary I got worse and week. until I was told by one of them that I could find but now me and the contrary I got worse and the contrary I got worse and week. Until I was told by one of them that I could recover. Dr. Woh took me in this condition. He has in two months' time entirely cured me. I most cordially recommend him to all sufferers.

Dr. Woh was recommended to me by a friend. I had been troubled for years with indigestion, causing fearful headaches and vertigo, making my life one of misery. I tried and paid the best physicians without relief. Finally, to please my friend. I vised to the work of the April 8d, 1891.

For 3 years I have been troubled with terrible cramps and pains in my abdomen, and with dropsical swellings of my feet and limbs. I endeavored in every way to find relief but failed, until four weeks ago I began using Dr. Woh's medicines. Now I am perfectly well and cured of a sickness of three years standing! do recommend Dr. Woh to all my sick friends.

[Forest and Stream.]

Some wooden tent-pins inclosing a few square yards of ground half covered with a bed of evergreen twigs, matted but still fresh and odorous, a litter of paper and powder-smirched rags, empty cans and boxes, a few sticks of firewood, a blackened, primitive wooden crane, with its half-charred supporting crotches, and a smoldering heap of ashes and dying brands, mark the place of a camp re-

brands, mark the place of a carry cently deserted.

Coming upon it by chance, one could not help a feeling of loneliness, something akin to that inspired by the cold hearthstone of an empty house or the crumbling foundation of a dwelling long since fallen to ruin.

The entire plant of the San Diego Coal and Clay Company at Elsinore, in San Diego county, which was destroyed by fire during the early part of the week cripples a very timportant industry. This company has been engaged in the manufacture of sewer pipe. The corporation had supplied the city of Los Angeles with a great deal of its sewer pipe. They had just completed a patent box fiume pipe for irrigating ditches to take the place of the square redwood box that is now used. This redwood box rots easily and at great expense if is not protected from decay. This company had secured the cores for a square fiume pipe with places where the water could be discharged. The pipe was also provided chith sockets, so as to make a continuous pipe without any difficulty. The first die made was on this coast and by this company. It could not be made anywhere in the East. The company was loaded down with orders to complete, but their plant4s, now a complete wreck. WANT LOWER ICE RATES. R. G. Sneath, president of a San the Board of Railroad Commissioners a complaint against the Southern Pacific Company, in which it is claimed that there would be a large demand for ice throughout the warm valleys of the State were it not for the high rates of transportation. The statement is made in the complaint that the rates of the Southern Pacific company are ten times as much as the combination rates of all. the roads leading from the great lakes. The rate is stated to be in the East 1/2 cent per ton per mile, and 5 cents per ton per mile in California. The complaintant asks that the subject be investigated and that the Scatter Deafle. tigated, and that the Southern Pacific company be compelled to reduce the rate on ice. The petitioner is of the opinion that three times as much as the eastern rate should be allowed, or 1% cents per mile for each ton.

PACIFIC LOAN COMPANY.

An incorporated institution That Lends Money on All Kinds of Personal Property.

The Pacific Loan Company, late at 124/5 South Spring street, has fitted up and occupied a handsome suite of offices in the new Summer's block, 114 South Spring street, opposite the Nadeau Block. The rooms are Nos 2, 3 and 4, on the second floor. They are very conveniently arranged, and one is a private office especially for ladies. The company was incorporated in 1890, though its business was established in Los Angeles three years ago. It has fire and burglar-proof safes for valuables, employs a night watchman, and enjoys the reputation of being thoroughly responsible and reliable in every respect. A large part of its business is with ladies, to whom it makes loans at reasonable rates on jewelry, diamonds, seal-skins and almost any kind of personal property, treating its lady patrons considerately and allowing the money borrowed by them to be paid back in installments. Which is often a great convenience. Money may be obtained on pianos without the instruments being removed from the premises. All business is conducted in strictest confidence and without any of the unpleasantness that usually attends the effort to get money on personal or collateral security. The manager is W. F. De Groot and callers will find him a courteous and agreeable gentleman. as and agreeable gentleman.

The Harper Tract.

If you don't think that pluck and energy are appreciated by shrewd buyers, go out and see the improvements that are being made on this tract, judge from the numerous transfers that are made by Miller & Herriott. There is still further improvement contemplated. This tract, located near Adams and Hoover streets, is certainly second to no other place in the city for fine residences. The improvements are all first-class and are still getting better. Messrs. Merithew & Ferris have just let the contract for a \$12,000 residence which is being built for A. J. Salisbury on the corner of Hoover and Twenty-seventh streets. The electric road people say they will have the cars running by the tract in thirty days, which will make it still more destrable.

Must Let Go.

Must Let Go.

I must let go, and for the purpose of trying to avoid the trouble consequent upon foreclosure I offer for sale good income city property which I will sell at a sacrifice. It is impossible for me to meet the demands of my creditors, or longer pay the high rate of interest required by the money lenders, and I make this statement hoping it may attract the attention of someone with ready cash who may relieve me of my anxiety, and at his own price for property, supply my creditors' wants. Should anyone with the means to relieve desire to investigate, please communicate with or call on R. B. Woodard at No. 236 Winston street, Los Angeles, Cal.

Dr. Wong Him.

The First Chinese Physician to practice his profession in this city was Dr. Wong Him. Has practiced here for sixteen (16) years and his cures and successful treatment of complicated diseases is proof of his ability. He belongs to the sixth generation of doctors in his family. A trial will convince you. Office: 639 UPPER MAIN ST. P. O. Box 564, Station C. Los Angeles, Cal.

I had been sick five months, paid out large sums of money for doctors and medicine but derived no benefit. Dr. Wong Him was recommended to me by a friend. I did not think I could get well, as my lungs and kidneys were very bad and getting worse all the time. Dr. Wong Him took me in this condition; he has in two months' time entirely cured me, and now I feel it my duty to testify in his behalf. I wish to recommend him to the public as an efficient and skillful physician.

## FALL FASHIONS FOR MEN!

The prevailing and popular colors to be worn this Fall by gentlemen who pay attention to fashion will be Tan and Brown in a dozen different shades, both in plain and mixed colored chevlots and also worsteds. These colore are, of course, intended for street and business wear, and will almost entirely take the place of the black cheviots which have been worn so much for the past two seasons. We never considered black cheviots very well adapted to this section of the country, on account of the fact that here we all do a great deal of riding and our long dry seasons give us a great deal of dust, and we therefore welcome the change These Tan and Brown cheviot goods for young men will mostly be made up in the English patch pocket, single-breasted style and quite a few with double-breasted vests. Double-breasted coats also will be worn to some extent. Plain gray suitings have been very popular heretofore, but will be substituted this Fall by a new shade of gray with small pin-head pattern or else a dark steel plain gray with diagonal pattern. Black, clays and piques in blue and black are always correct for dress wear.

In Trousers there is nothing particularly new. The tendency is for neat effects; stripes will, of course, predominate, and some few will be worn with a black braid on the side.

## IN OVERCOATS

Plain goods will have the lead. The new shades of Tan Cheviots will also be made up in Overcoats. Miltons and Kerseys will, as usual, continue to be the most popular. Silk facings and silk linings will be worn by a great many, as they make a garment more dressy, but this is only a matter of taste. Young men will wear the nobby cut short Overcoat, but not so full back as last season. Velvet Collars will be worn some. Next to the tan shade, blue will be a good second in the race for favorite color in the heavier weights of Overcoats; also Irish frieze goods are in favor, and some will like a long Ulster of small check pattern.

In conclusion we desire to say that we have already in stock nearly all our entire Fall Stock and they are in accordance with the latest styles and fashions. The coming week we will begin to exhibit the same in our large show windows, and we are always pleased to show them inside, whether you are purchasing or merely looking for your future wants. In Boys' Clothing we also carry in stock the latest styles and will speak of them more fully later on.
